How to write a comment

Today, you will write a comment about the topic "social media"
(Instagram, TikTok, Snapchat, Facebook, ...).

Your task

1) Please read what some students say about the topic on worksheet 1.

2) Read again and highlight
pro arguments **green** and
con arguments **red**.

1 What do you think about social media?

1) Read what the students think about social media.
2) Highlight pro arguments green and con arguments red.

I have some relatives and friends who live far away in South America. It's great to be able to see photos and videos of them on a regular basis and comment on them. Writing an e-mail takes too long - reacting to a photo is faster for me. I can always see what they do. This way they don't feel so far away.

I don't use social media because I am sick and tired of all the perfect pictures. It puts too much **pressure** on me to always post something exciting and I don't want to **compare** myself to others. I also have a friend who got a lot of **hate speech** and got very depressed because of that. In my opinion, social media is **toxic**.

I follow my favourite singers and actors on social media and love to get an **insight** on their everyday life. By following them I also know when they will be in my city for their next concert or when a new movie is being released. Once I wrote to my favourite actor and he replied! I was in heaven!!!!

I think it is so scary that social media knows so much about me and that there are so many evil people who use social media to **commit crimes**. When you post where you are all the time and **robbers** may see that you're not home they can easily break into your apartment.

I made a lot of new friends on social media and met my girlfriend there. My best friend even found his new job through social media! I think it's a great **tool** to connect people. What I don't like is that many people **spread** fake news and are totally fake themselves. They **pretend** to live a perfect life, which is not true.

There are so many artists on social media who give me a lot of inspiration for my own art projects. What I don't like is when I see how many dangerous challenges people do and when older men send me friend requests or disgusting messages. Unfortunately, there are **pedophiles** on social media who try to find **victims**.
