

OPERATORS – COMPREHENSION TASK

operator	what is expected	example
describe	You write in detail about what sb. or sth. is like.	<i>Describe the situation Ethan is in and how he deals with it.</i>
summarise	You write about the main aspects of sth. or about somebody's behaviour.	<i>Summarise what Ethan finds out about Touchstone and how this changes his feelings.</i>
point out	You write about certain aspects and explain them.	<i>Point out the aspects that prove that Touchstone is not what Ethan thought.</i>

Brainstorm

With a partner: What do you remember about writing a “summary”?

Revision

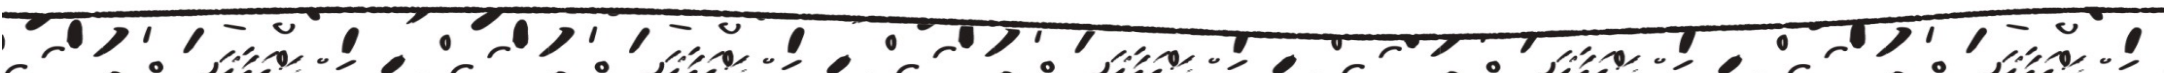

Let's read the checklist for writing the comprehension task.

- Which aspect haven't we mentioned in our brainstorm phase?

PRACTICE: FOOD FOR A WEEK

- 1) **Read** the given extract carefully and note down all **aspects that should be included** in the comprehension task (key words only!).
Finished early? Come up with a great **introduction** for the task.
 - 2) Time to **write** your actual text (using your great introduction and the notes you have taken).
 - 3) **Exchange** your text with a partner and give each other **feedback** with the help of the skills sheet (consider the structure, content, language)
- 

PRACTICE: FOOD FOR A WEEK – EXPECTATIONS:

1.

You should do the following:

Describe the situation Frenchie finds himself in, e.g. • He and his group are trying to survive in the wilderness. • He is hunting because he needs to get food for himself and his group. • He has found a moose, and believes he could shoot it. This would make him a hero to the group.	3
Sum up how Frenchie deals with the situation, e.g. • He feels nervous, but chooses where to aim his gun at the moose's body. • He starts to think about the moose and to imagine its perspective of the situation. • He decides that he cannot kill the moose because it would be wrong to destroy it, partly as they would not be able to eat all the meat. • He thinks about his decision and its consequences.	5
